

# ***Survoler Consulting***

## *Company Profile*

## **Mission statement:**

To be the best solutions and value provider in the region and beyond.

## **Vision statement:**

To enable greater, efficient  
and effective firms.

# 1. Assurance

- i. Information Systems Audit
- ii. Financial and Operations Audit

We engage organizations with the objective to provide an independent assessment on risk management, control, governance processes etc.

## a. Vulnerability Assessment and Penetration Testing

## b. Risk Management

Survoler offers *VAPT* services which involves finding loopholes in an organization's digital assets that can be used to infiltrate the system and compromise the integrity of data. Alongside this we also offer Information Systems Audit services.

At survoler we help organizations in identifying, analyzing and prioritizing mitigations of risks that could emanate from various factors like financial uncertainty, legal liabilities, strategic management errors and even accidents and natural disasters.

## 2. Trainings

## a. Cyber Security Awareness

Create awareness of how to stay safe on the internet and other basic knowledge like password management etc

## b. ISO 31000

Training around Enterprise Risk Management

## c. Soft Skills

We work together with organizations to ensure effective performance management, management, leadership etc

## d. **Forensics Audit and Support**

We provide a meticulous, evidence-based approach to uncover and document findings, helping organizations gain clarity, mitigate risks, and enhance their operational integrity.

### 3. Compliance

We provide expertise and advice to help organizations comply with the set law(s), regulations, internal policies and procedure through training and compliance support

## 4. Advisory

We assist clients in improving their systems and processes over time

An isometric illustration featuring several purple 3D blocks of varying heights. People are shown interacting with the blocks: one person stands on a block with a large screen displaying a green gear icon; another person stands on a block with a donut chart; a third person is on a block with a large upward-pointing arrow. Ladders are leaning against some blocks. A potted plant is on the left, and a lightbulb is on the ground near the bottom block.

## a. Formulation and Review of Business Processes

We support businesses in coming up with well documented business processes and procedures to effectively guide their operations and mitigate inherent risks.

## b. IT Asset Management

We help businesses understand the need to have proper records for their digital assets, their value, the risks associated with them and to whom they are mapped, for responsibility purposes.

A person wearing a white long-sleeved shirt is shown from the side, reaching into a metal filing cabinet. They are holding a white envelope or folder and appear to be organizing or retrieving documents. The filing cabinet has multiple drawers, and the top drawer is open, revealing numerous papers and folders inside. The background is a plain, light-colored wall.

c. Knowledge  
Management

d. Records  
Management

We provide guidance on how best to go about structuring, retaining and sharing knowledge within an organization, to ensure collaboration and promote innovation.

Survoler guarantees competence in ensuring that institutional records of vittal, fiscal and legal value are identified and preserved, and that non-essential records are discarded timely according to the established appraisal and disposal guidelines.

## e. Establishment of information storehouses

Establishment and development of storehouses including libraries, information centres and repositories is within our ability to enhance proper organization, storage, preservation and retrieval of information resources.

## f. Strategic planning

We help organizations develop clear, actionable strategies aligned with their vision, goals, and market realities. This is by setting priorities, optimizing resources, and driving measurable results through focused strategic planning

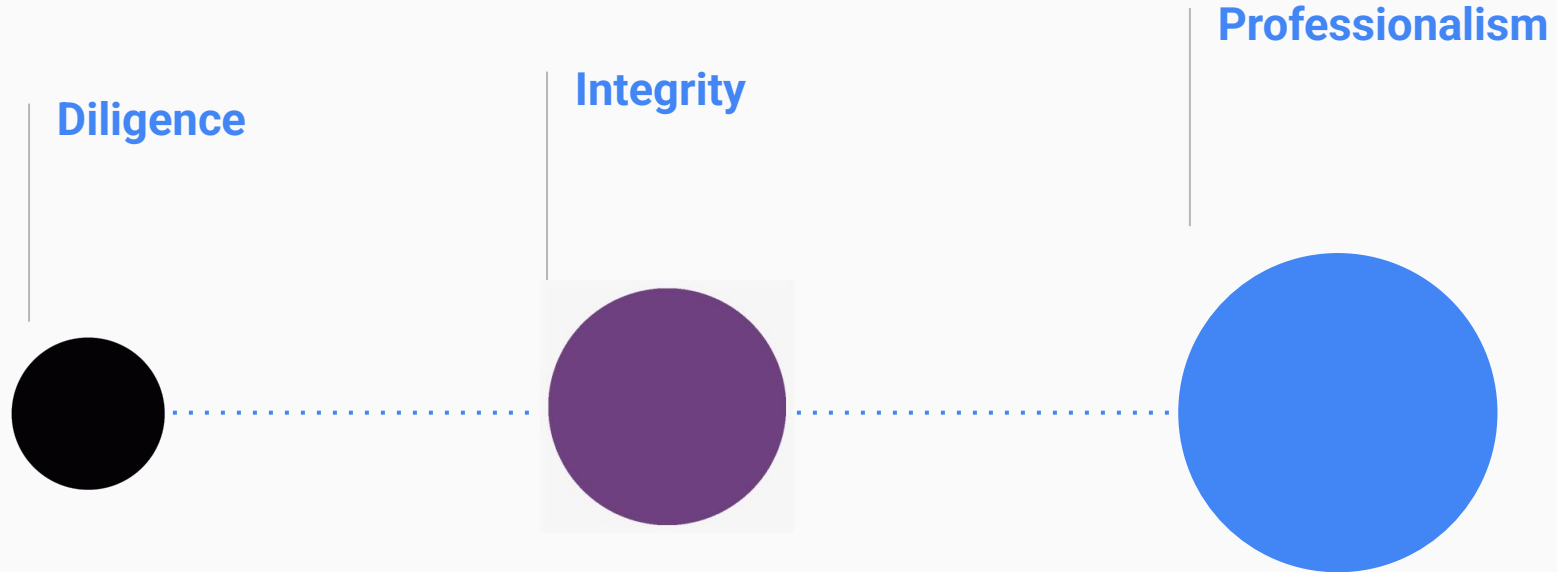

## 5. Website and Systems Design

We help startups, SMEs and even individuals in coming up with elegant and good looking websites to relay their desired information online as well as business oriented systems
